To Our Loyal Patients and Friends,

We would like to make you aware of some big news at Madison Eye Care. Kamal and I have decided to sell our practice after five years here in town. As many of you are aware, my father and oldest brother are ophthalmologists, practicing together in upstate New York. After nearly 40 years in town, my father is looking to retire. Meanwhile my brother is renovating a space into a new state of the art eye-care facility. He is looking for assistance in managing the portion of the practice that is my father's. Kamal and I are also excited to announce the arrival of our second little baby boy in March. Raising two little boys has made us realize the appeal of being a lot closer to our family! So, it is with some mixed emotions that we are announcing our move to New York at the end of the summer. We are excited about the professional opportunity and the advantages of raising our kids closer to our extended family, but we will certainly miss the practice we have worked so hard to build here in Madison.

We are excited to announce that the practice has been purchased by Dr. Maria Diaz, an accomplished optometrist and close personal friend. Dr. Diaz has built a very successful practice in East Haven, and we are confident that Madison Eye Care will continue to grow under her care. She will be bringing along one of her trusted associates, Dr. Eileen Bush. Dr. Bush worked alongside my wife at the VA hospital and is highly competent. You can be assured that everything will still be in place at our current location in Madison. All previous exam records and optical records will be located here. Anita and Linda, our friendly receptionists, will still be here to greet you and assist you in any capacity. We believe the transition of care to Dr. Diaz and her associates will therefore be as seamless as possible. Turning a practice over to another professional is like trusting the care of a family member to someone else. We couldn't be more comfortable with Dr. Diaz.

Kamal and I would like to thank you for all of the great support you have given us these past five years. It was our great pleasure and honor to be your eye-care providers. We hope you will continue to support Madison Eye Care long after we leave. My wife and I will be around town enjoying one last summer on the shoreline before we leave, we'd love to thank you in person! Have a great summer and we wish you all the best!

Sincerely,

Paul and Kamal (Singh) Westfall
